We gather in the heart of Australia at Uluru to share the timeless wisdom (kanyini) of the Aboriginal Elders and the Grace of the sacred and powerful sites in this area. This retreat includes time camping on the land and cultural activities with an Aboriginal family, living in the old ways, in community out on the land. In this beautiful retreat at the most sacred site in Australia, Andrew Harvey will share his insight and practical wisdom on his life's work, Sacred Warriorship and why it is vital to protect Mother Earth and stand up as a sacred warrior in support of indigenous people and sacred sites, supported by Indigenous wisdom from elder Bob Randall on the importance of connection with country and from his wife, Barbara on the practicalities of working in successful partnership with Indigenous people. We will have the assistance of the download of energy and connection with Mother Earth at this, one of her most powerful and sacred sites connected with the Wisdom of the Heart.
