

# Sedona

## Drunvalo & Hopi Lands

1-14 October 2010

(14-17 October - Shasta extension)

This special tour will take us to the spiritual heart of North America. We will visit power place Sedona for a private meeting with Drunvalo Melchizedek and will also attend his newest five day workshop. The tour will include visits to sacred sites around Sedona and also the Grand Canyon. Optional extra Mount Shasta extension for 4 days.

To my mind Drunvalo is the father of the New Age and many of the major teachers trace the root of their teachings back to the wisdom he's brought through. Sedona is the most ancient and powerful landscape on the North American continent with many amazing and powerful sacred sites that can transform the body, heart and mind of those who visit and in return is a place in the world where collective prayers can be heard more deeply and brought into being. Mount Shasta is the equivalent of the world's root chakra and one of the most energetically powerful and visually magnificent places on the planet.

# Awakening the Goddess

## Aura-Soma, Avalon and the Holy Grail

September 2010

I've been invited by Mike Booth, the head of Aura-Soma International, to New Farm in Tetford, England, to take part and contribute in the final stages of an amazing project. Aura-Soma obtained the farm from which they derive many of the herbs used in their healing products and it was discovered that there was a Goddess residing dormant in the landscape. A series of initiations and preparations have taken place to awaken the energy and chakras of this land, which will culminate with the blessing ceremony in September 2010. We will travel through the south west of England, to the heartland of the druids and priestesses of Avalonian times, to visit Glastonbury, Avebury, Stonehenge, Tintagel, and more and to Wales to the final resting place of the Holy Mother Mary. We will awaken the feminine beauty in ourselves before assisting in the rise of the planetary new Avalon and the awakening of the Goddess on Aura-Soma land. The druids helped to awaken the land several hundreds of years ago in preparation for this time and all great spiritual cultures in the world have stories about Avalon and how these temples will arise and the new planetary Jerusalem will come forth. One of the most important places where this must happen is of course the British Isles.

# Peru Tours 2010

The Andean Master Path for 2010 is in three sections and you are welcome to attend all or any of the sections.

Late May - End June 2010

### PART ONE:

#### Retreat in the Sacred Valley & Qolloryti Festival

The retreat will be held in the stunningly beautiful Sacred Valley to connect with the sacred place that sprouted one of the world's most advanced spiritual cultures. We will focus on the depth of the Andean spiritual system and your own personal healing. Following the retreat we will tour the many sacred places in the Sacred Valley including Macchu Picchu, before heading to Cusco and Apu Qolloryti, a sacred mountain topped by a glacier where on the May/June full moon high spiritual practitioners of the Andes gather each year to pay homage and perform ceremony.

### PART TWO:

#### Inka Wakas

#### Lake Titikaka - her shores and her islands

Mother Titikaka is one of the most sacred and energetically powerful places on the planet, it is Mother Earth's reservoir of divine feminine energy, akin to her sacral chakra, it is here that the highest council of Lemurian culture sat and much of the world's spiritual wisdom is sourced. We will visit the amazing Island of Amantani, Island of the Sun and Moon and Temples of Tiwanaku and Sulastani on her shores, as well as many other sacred places.

### PART THREE:

#### Inti Raymi, Winter Solstice & the Puma City

Cusco the Puma City, was the capital of the Inkan empire. Each year on the winter solstice, June 21, representatives from each corner of the Inkan Empire would gather at Saqsaywaman to report to the Inka and pay homage to Inti the Sun God so that the long days of summer would return. Since the Catholic invasion this festival now takes place on the 24th of June which enables us to see the sun illuminate the Temples of Macchu Picchu on the winter solstice and be at Cusco for the festival.
